

Due West Science Fair 2019

Have you had a burning question keeping you up at night? Well, now's the time to find the answer to that question! The Due West Science Fair is looking for young, eager scientists willing to do a little experimentation and show us those answers. Again this year, 3rd, 4th & 5th grade students may enter a group project (two students per group – must be in the same grade level).

Students will be evaluated by a group of independent judges on three criteria:

- **Project** – Was the scientific process (hypothesis, variables, conclusion) followed? It doesn't matter if your hypothesis is proven wrong. It's all in finding if it's right or wrong that counts.
- **Science Project Logbook** – Was the process recorded in a detailed step by step manner?
- **Board** – Is your science fair board neat and all the necessary data displayed?
- **Presentation** – Each student should be able to give a brief description of his or her experiment and answer the judges' questions.

Who can participate – Any student K-5

January 16th – No Later than the 16th, please send in the form below.

January 23rd – Project judging at Due West for K – 2nd (projects due at the school media center by 7:45am)

January 24th – Project judging at Due West for 3rd – 5th (projects due at the school media center by 7:45am)

January 25th - 8:00am, Cafeteria – Awards & Celebration

February 9th - Cobb-Paulding District Science Fair, Lovinggood Middle School
TBD - Tom Mathis Science Fair

The Rules & Guidelines, Rubrics, Information on potential projects, the scientific process, and how to prepare a science fair board can be found at www.duewestpta.com

Yes, I want to enter a project in the Due West Science Fair.

(must be in 3rd – 5th grade for group project – groups must be in same grade)

Name (s) _____ (List both students if group project)

Teacher _____ Grade _____ Project _____

Parent signature required for group project _____

Please return to your teacher by January 16, 2018.
